Price \$2

**VETERANS' CASH**  
Game # 0990  
UPC 7-91157-00990-8  
Price \$1

## IT'S IN THE MIX! Scratch-Offs For Everyone

The West Virginia Lottery does scratch-off game testing and analysis of sales of each game. And with that data and feedback from players and retailers like you, we work to create a game mix that has something for everyone.

You may have noticed some game mix changes in the last six months that included:

- Big top prize games,**
- Better odds with small top prize games,**
- More \$5, \$10, and \$20 games,**
- Fewer \$1 and \$2 games, and**
- Larger order quantities for some games.**

The game themes, odds, and top prizes are part of the variety that allows players to hopefully find something they like at all times. Some players are dreamers and like the large top prize. Some are odds players and like the more abundant smaller prizes. We can't make everyone happy, but we work hard to please the most we can, always.

Similarly, we have been observing and analyzing sales for all games and have added more higher price point games while reducing the number of lower price point games. We have also adjusted game order quantities to not sell out so quickly or to sell out faster dependent on the season and game. This is based on game sales and player demand across the state as a whole. We are still working to meet player demand for product.

### And how about the scratch-off mix for YOUR players?

With our new predictive ordering system, let your Field & Marketing Sales Representative and Telemarketing Representative work with you to get the best mix for your location. The system looks at sales trends by game, theme, prize, and price. **They can help you get the right games for YOUR players!**

## Game Info

Game # 0978  
UPC 7-91157-00978-6  
Price \$1  
Size 4" x 2.5"

<b>PER PACK</b>	Tickets	200
	Retailer Cost	\$186.00
	Commission (7%)	\$14.00
	Guaranteed Prizes	\$117

Top Prize \$1,000  
\* Overall Odds of 1 in 4.98  
Prize Payout 62.58%  
\*\* Approximate Tickets Printed 1,320,000

## SCRATCH-OFF TICKET ACCOUNTING AND INVENTORY IT IS ALL ABOUT THE STATUS!

The new 21-day billing cycle for instant games is based on ACTIVATED status and began July 1; previously the billing cycle began when the pack CONFIRMED/shipped. Now your pack settlements will be a better reflection of actual games available for sale in store and most packs should be sold through within the 21 days after it is ACTIVATED. The current accounting/billing terms more accurately show the inventory you have on-hand.

The new inventory process has a couple of new steps, but it adds extra security and lessens any financial risk that you incur with the scratch-off product. Remember there are more statuses now for a pack, and include:

**ISSUED:** This means the tickets are being packed and are on their way to your store, or will be shipped shortly.

**CONFIRMED:** Please confirm orders as soon as your tickets arrive. Remember, this is not a financial status. The pack is still the property of the Lottery.

Select INSTANT FUNCTIONS > Select ORDER CONFIRMATION > Scan the invoice (manifest) slip barcode that came with your order, or manually enter the barcode number.

**ACTIVATED:** Activate each pack before putting it out for sale. THIS IS A FINANCIAL TRANSACTION, the pack is your property, and the pack will settle 21 days from this date. This also is required for tickets from that pack to be validated.

Select INSTANT FUNCTIONS > Select ACTIVATE PACK(S) > Scan the long barcode on any ticket of that pack, or manually enter the barcode number.

**SETTLED:** This is when you are billed. It is 21 days after ACTIVATED, and the amount for those packs comes due in that weeks INVOICE.

**RETURNED:** This is when a full or partial pack of tickets is returned to the Lottery. **NO MONEY IS BILLED OR CREDITED FOR PACKS UNLESS THEY ARE ACTIVATED OR SETTLED!**

Full packs in ISSUED or CONFIRMED status are changed to a RETURNED status, are no longer part of your inventory, and no money is billed or credited for these packs. Full packs in SETTLED are changed to RETURNED status and your location will receive credit for the amount of tickets returned minus commission.

Partial packs in ACTIVATED status are first SETTLED, then the remaining tickets within a pack are changed to a RETURNED status and your location will receive credit for the tickets amount minus commission.
